DETAILED ACTION

Remarks

1. Applicant's amendments to the claims have overcome the claim objections and rejections under 35 U.S.C. 112 second paragraph of the previous action. The objections and rejections are withdrawn. Also applicant amended the claims following the suggestion of the examiner in lines 1 through 8, page 8 of the previous office action, thus placing the claims in condition for allowance with the reasoning stated below.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) Claim 27, line 4: the following has been placed after "heterojunction" -- . -- .

Allowable Subject Matter

3. Claims 1 and 3 through 33 are allowed.

4. The following is an examiner's statement of reasons for allowance: within the previous office action the examiner stated the independent claims would be allowable if they were amended to recite language concerning the location of the electric field within the device. The prior art cited does not contain electric fields formed integrally at the interface rather than uniformly across the cell as required by claim 1, fields formed integrally at the p-n heterojunction as required by claim 11, or fields concentrated at the

p-n heterojunction interface rather than dropping uniformly across the bi-layer organic photovoltaic cell as required by claim 17. Further it would not be obvious to alter the prior art to include these local electric fields and the inclusion of these limitations make the claims allowable as stated by the examiner in the prior action. Claims 3 through 10, 12 through 16 and 18 through 33 all depend from one of claims 1, 11 or 17 and are allowable for the same reasoning.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Fick whose telephone number is (571) 272-6393. The examiner can normally be reached on Monday thru Friday 7 AM to 4 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
